

Steve Smith

„Sonor drums have remained my first and only choice as a high quality instrument for the past 40 years. My sound is the „Sonor sound,“ I can't imagine playing any other drumset.“

Steve Smith (Vital Information, Journey)

 **SONOR®**

Steve Smith 40th Anniversary (1977-2017) Limited Edition Snare Drum

It's time to celebrate a very special „lifetime“ relationship: in 1977, a young Steve Smith - by that time touring with Jean-Luc Ponty - was on the search for his first high quality drumset. He happened to fall in love with a Sonor kit on display at a local shop in Boston, MA, USA.

Since then, Sonor has remained Steve's one and only choice for professional drums - be it with Journey, Vital Information, and many other milestones in his musical career. A career that made him a true „Drumming Great“, one of the most renowned Drummers of all times.

„My Sonor 40th Anniversary snare drum is a Dream Drum! The sound is warm and rich with a beefy low-end plus pin-point precision in the high-end. The magical combination of the vintage beech shell, mountain burl veneer inside and out, 8 „bowtie“ lugs and vintage hoops come together to create the perfect wood snare drum!“
