

Now You're A Dollar Closer To Perfection

If you're a serious drummer, then you already know that Sonor drums are devastatingly close to perfection. And you also know they're very expensive.

But you may not know why they are so expensive. It's the details that give Sonor the quality that no other drum can equal. They look it and they sound it. And that dedication to quality doesn't come at bargain prices. So Sonors may be a bit harder to acquire.

But once you've played on them there's no turning back.

Anyway, there is something we can do for you. Simply visit your Sonor dealer*. Check out our drums and we'll send you a dollar. You can even use it towards your first set.

Now what are you waiting for?

SONOR®

Sonor drums. Details, not compromises.

*By the way, every drum shop doesn't carry Sonor. We're only in the most qualified stores. Call or write us for the dealer nearest you.
